

A Collection of Screenshots Illustrating The Workflow of QuickCV

1. Task 1 – Deployment Strategy (Jenkins Pipeline + Pipeline Diagram):

The screenshot displays the Jenkins web interface for a pipeline named 'QuickCV-Pipeline'. The top navigation bar shows the Jenkins logo and the pipeline name. The main content area shows the status of the pipeline run #11, which is successful (indicated by a green checkmark). The run was started by user 'Manan Bhimjiyani' and completed on 4 Oct 2025, 10:25:09. The run duration was 9 seconds. The pipeline steps are listed on the left, including 'Changes', 'Console Output', 'Edit Build Information', 'Delete build', 'Timings', 'Git Build Data', 'Restart from Stage', 'Replay', 'Pipeline Steps', 'Workspaces', and 'Previous Build'. The right sidebar shows the 'Add description' and 'Keep this build forever' buttons. The bottom section shows the 'Revision' and 'Repository' information, along with a list of changes.

2. Task 2 – Configuration Management & IaC (Ansible Playbook Output + ENV + Docker Status):

```
manan@yognishi: ~/QuickCV - ssh manan@192.168.31.174  manan@yognishi: ~/ansible/quickcv-iac - ssh manan@192.168.31.174  manan@yognishi: ~/ansible/quickcv-iac - ssh manan@192.168.31.174  +
